EXPERIENCE

CS INFOTECH

Industrial Trainee

(July 2025) - Current 6 months

SEC-22C, CHANDIGARH

- Developed and maintained **full-stack web applications using ASP.NET Core MVC**, ensuring a seamless user experience for an **E-Commerce platform**.
- Designed and optimized **relational database schemas** in **SQL Server**, implementing Stored Procedures, Joins, and Views to improve query performance and data integrity.
- Implemented secure user authentication and authorization using **Entity Framework and ASP.NET Identity**, protecting sensitive user data and checkout processes.
- Conducted **API testing and debugging using Postman** to ensure 100% endpoint reliability and adherence to REST standards.

PROJECTS

E-Commerce Book Store ASP.NET Core MVC

- * Developed an online book shopping website using **ASP.NET Core MVC**.
- * Used Entity Framework and Identity for database operations and user authentication.
- * Built responsive **UI** with **HTML, CSS, JavaScript**.
- * Designed SQL Server tables and implemented Stored Procedures.
- * Implemented key features: **book listing, cart, checkout, and secure login/registration**.

National Park API ASP.NET Core Web API

- * Built a RESTful API using **ASP.NET Core Web API** for managing National Park data.
- * Used Entity Framework and SQL Server Stored Procedures for **CRUD operations**
- * Implemented **Add, Update, Delete, View endpoints** and tested using **Postman**
- * Wrote clean, structured, and maintainable **C#** code

EDUCATION

Maharaja Agrasen University

Bachelor of Technology(Computer Science and Engineering)

Aug. 2022 – May 2026

Baddi ,HP

- * **Current CGPA:** 6.02
- * **Coursework:** Data Structures, Algorithms, Databases, Computer Systems, Machine Learning

Government Model Senior Secondary School

Stream : (Non-Med)

2020-2022

SEC-27, CHD

NOBLE HIGH SCHOOL

Matriculation

2020

PINJORE, PANCHKULA

SKILLS

Frontend Technologies : HTML5,CSS3, JavaScript

Backend Development : C, ASP.NET MVC

Database Management : MS SQL Server

Database Programming :Stored Procedures, Joins, Views, User-Defined Functions
